Mapam Opposes **Pro-France Line** At UN Assembly

POST Diplomatic Reporter
The decision that the Israel delegation will vote with France at the forthcoming U.N. General Assembly on the Algerian question, French nuclear tests in the Sahara and other African problems is likely to be contested by the Mapam Ministers at today's Cabinet session.

The decision, taken by the Foreign Ministry last week, is based on Israel's close friendship with France. Although the policy may create certain difficulties with Zarael's numerous friends in Africa, it is expected that countries such as Ghana, Guinea and Liberia will appreciate it in view of their understanding of the Middle East scene.

The matter was not raised during last week's Certain descriptions.

The delegation's attitude to be election of the three new on-permanent members of the ecurity Council and the chairon-permanent members of the Security Council and the chairmen of the Assembly's seven committees has been agreed upon by all Cabinet Ministers.

Israel is to support the election of Ceylon and Ecuador to the Security Council, replacing Canada and Panama. The candidacy of the third member, to replace Japan, is still uncertain and is meanwhile being contested by Thailand and Turkey. In the event of the Soviet blee pressing for an East European candidate, the West may favour the nomination of Greece.

The election of Dr. Bellaunde of Peru as Assembly President, replacing Charles Malik of Lebanon, is agreed on by all U.N. members, although the Soviet bloc is likely to suggest the election of a Pole, since the question of "equitable geographical representation in the election of the Assembly President" has been put on the agenda by Caechoslovakia.

Israel is to support the election of Mr. Matz of Austria to the post of Chairman of the First Committee. The appellant company, Bater Rani Ltd., was formed for the purpose of acquiring a plot of land in Hadar Hacarmel and building on it. After the building was completed, the company sold the shops, offices, and flats to various persons, retaining one office for their own use.

The Haifa Municipality leviced a municipal business tax

The Haifa Municipality levied a municipal business tax on them under clause 72 of the Haifa (Municipal Business Tax) By-Law, 1956, on the grounds that they were engaged in the development of land, and in building for sale or lease.

The Haifa District Court, while taking account of the fact that the activities of the company were confined to the construction of one building on one site only, nevertheless held that it may be presumed that a company, as

The company appealed against this decision to the Supreme Court. Mr. Komor-nik appeared for the appel-lants and Dr. Behr for the respondents.

Judgment

Justice Witkon, who delivered the minority judgment of the Supreme Court, pointed out that it has already been held (in C.A. 56.57/55, P.D. 6/532). 9/892) that a transaction which is not a "business" when carried out by an in-dividual, does not become a "business" merely because it "business" merely because it is carried out by means of a company controlled by him. The court must, therefore, he continued, examine all the facts in order to decide whether a company does actually carry on a business and cannot presume this to be the case by virtue only of the fact that a company is involved.

the fact that a company is involved.

After discussing the factual evidence in the present case Unstice Witkon concluded that the appellant company may be said to carry on a business particularly as its founders, managers and shareholders are, for the most, persons who are generally ensons who are generally ensons who are generally en-gaged in building for pur-poses of sale or lease, and The preliminary eliminations will be held on Wednesday in Jerusalem's Rehavia Gymnasium: in the Z.O.A. House in Tel Aviv; in Beit Erdstein in Haifa; and in the Rehovot Secondary School. Of the 433 participants all those under 18 were not registered — 36 are women.

plied as would apply to an individual, the court had no choice but to exempt the ap-pellants from business tax as the businesses carried on by the individual owners of the company may not be im-puted to the company itself.

Justice Goitein

Justice Goitein, in agreeing that the appeal should be
allowed, said that there was
only one question before the
court: whether the appellants carried on a business or
not. And in considering the
factual evidence, he continued, he could not agree
that it pointed to the conciusion that the appellants did
in fact carry on a business,
as neither the fact that the
majority of the share-bolders
are building contractors nor
the fact that the company
had applied for a long lease
on another plot of land was
sufficient to justify such a sufficient to justify such a conclusion. The practice of founding a company in order to erect a building, he conto erect a building, he continued, is very common in Israel, the usual custom being for would-be purchasers of flats to come to some joint arrangement with well-known contractors. And the appellants' application for a lease on another plot of land, — which in any case was rejected — did not in itself prove anything.

Appeal allowed with IL150 costs.

Italian Ship Strays On Way to Akaba At I.P.U. Meeting

EILAT. — A slight confusion between east and west nearly brought an Akaba-bound Italian freighter into Eilat harbour on Friday morning.

The captain of the Italian ship stopped just out. The captain of the Italian ship stopped just outside the harbour and signalled for the harbour pilot to bring him into port. The Eilat pilot started our for the ship and signalled to it to prepare to enter harbour. The Italian Captain discovered his mistake after the pilot boarded the ship and exchanged a few words with him.

An offer to send a crew of Israel shipfitters to make several necessary repairs on the ship was politely refused by the Captain as he headed towards Akaba.

APPLIED RESEARCH

APPLIED RESEARCH
Editor, The Jerusalem Post
Sir, — Of late there has
been a spurt of interest and
activity in re-evaluating our
shortcomings in applied research — also reflected in
recent articles in The Jerusalem Post — and its effect
on the future potential development of our economy and
our industry in particular.
The word "spurt" is used
not unintentionally, for unless this problem is attacked
systematically, and followed
up relentlessly, we will within the coming years witness
the cumulative effect on our
competitiveness — or rather
— lack of competitive power
in world markets.
